

Youth in Philanthropy (YIP) Spring Clean Up

The Chargers YIP (Youth In Philanthropy) is a leadership program designed to introduce young people to philanthropy and community development. The program provides students with experience working as a team to learn about and help local charitable organizations with the support of the LdB Foundation. The YIP's main goal is to support worthy projects of a charitable nature within Lac du Bonnet and the surrounding area that will make Lac du Bonnet a more livable, secure, and caring community.

Each year YIP raises money to grow the YIP fund and then a portion of the profits is granted out to charities or other community organizations that enhance the lives of Lac du Bonnet residents. Last year's recipients include the Lac du Bonnet Arena, and Two Rivers Senior Resource Council.

This year we are having a town spring clean fundraiser. When the snow has melted, the YIP group is coordinating a student "clean the streets day", where students from the high school will pick up garbage that may have gathered there over the winter. This cleanup will make our streets more welcoming to all residents and visitors in the coming months. You can support this cleanup event by sponsoring the general cleanup of town or specify a certain block of a street to sponsor.

The benefits of the sponsorship are threefold:

- 1) You will receive a tax-deductible receipt
- 2) The town streets will be cleaned of garbage and look more visually appealing
- 3) The local charities and organizations will benefit with larger grants in the future.

You can support this fundraiser by donating online or completing the form below:

To donate online:
